Site-First SEO PRO – Documentation & Onboarding Guide

Introduction

Site-First SEO PRO is a lightweight, powerful WordPress plugin designed to improve your website's visibility without relying on external APIs or bloated toolkits. By analyzing your content directly on-site, it gives you actionable insights to optimize your SEO workflow faster and more effectively.

Installation

1. Download the latest Site-First SEO PRO ZIP file from your account.
2. In your WordPress dashboard, go to Plugins → Add New → Upload Plugin.
3. Upload the ZIP and click Install Now.
4. Click Activate Plugin.
5. Enter your license key under SEO → License to unlock PRO features.

Note: Your license key is included in your purchase email receipt.

Features Overview

Free Features:
• On-site content audit (pages & posts)
• Keyword density and readability checks
• Internal link suggestions
• Auto-generated sitemap
• 404 error monitoring and basic redirects
• Lightweight, no external API calls

PRO Features (includes everything in Free, plus):
• Advanced content scoring
• SERP Snippet Lab with pixel-accurate previews
• Historical scan tracking & comparisons
• Advanced redirect manager
• Exportable reports (CSV, PDF)

• Priority support & updates

Troubleshooting

• Plugin won't activate? Ensure you're running PHP 7.4+ and WordPress 5.6+.
• License issues: Double-check your key in SEO → License.
• Reports not generating? Make sure WordPress cron jobs are enabled.
• Still stuck? Contact support via your account dashboard.
